

PATIO HEATERS

FREE STANDING PATIO HEATERS

Designed in 1961 by Edwin J. Cowan, **Sunglo™** heaters have grown to becoming the industry leading name in outdoor radiant heating. Since that time the basic design has been modified for a wide variety of uses. The **Sunglo™** heater is welcomed in many resorts, hotels, restaurants, residential patios and backyards all over the world. Best of all, they are proudly made in the USA.

NATURAL GAS AND PROPANE PATIO HEATER

BY SUNPAK

Sunpak® heaters are simple to operate and use draft free and highly energy efficient infrared radiant energy just like the sun's warming rays. **Sunpak®** heaters warm objects rather than trying to inefficiently heat the air. **Sunpak®** heaters have been installed world-wide in thousands of premium residential and discerning commercial installations.

ELECTRIC RADIANT PATIO HEATERS

BY INFRATECH

Infrared or radiant energy is the most practical way to add warmth to spaces like patios, terraces, verandas, enclosed areas, or any indoor or outdoor seating where heating air cannot easily be contained and re-circulated. Now there is an eco-friendly way to turn up the ambience with Infratech electric infrared heaters.
